- Education First — We Teach You to Continue Healing at Home

Clients Review

"Madam Eunice is so patient with my son. For the first time he sat without support at 9 months! God bless UNI-SAMZ."

Ama T., Accra

About Us

Welcome to the UNI-SAMZ family.

UNI-SAMZ Physiotherapy was born from one simple belief: Physiotherapy should be professional AND full of heart.

Our Mission

BOOK APPOINTMENT

To provide world-class, evidence-based, and compassionate physiotherapy that restores function, empowers families, and brings hope — especially to children and new mothers.

Our Values

Compassion.

We see the child, not just the condition. We see the mama, not just the patient.

Excellence.

We stay updated with latest research to give you the best.

Empowerment.

We teach you exercises and knowledge to continue care at home.

Integrity

Honest assessment, no false promises.

Founded by Eunice Aba Aidoo Sam
Physiotherapist, Mother, Advocate.

My name is Eunice Aba Aidoo Sam, a licensed physiotherapist based in Accra, Ghana, with special interest in Paediatric Physiotherapy and Women's Health. After working with many families, I realized parents needed more than just treatment they needed education, hope, and someone who truly listens.

Whether it's helping a child with Gower's sign stay mobile for longer, correcting a teenager's scoliosis posture, or helping a new mama breathe through postpartum anxiety — we are here for you.
